

## Petition for Independent Study

Date: \_\_\_\_\_

The university maintains an independent study program for the convenience of those students who cannot participate in scheduled classes. The program helps students maintain progress toward their educational goal when unusual circumstances arise.

All students who can document their ability to benefit from an independent study and their need for an independent study will be considered for the program.

This form gives the student opportunity to do both. The form also provides space for the faculty member to offer a proposed format for meeting the course objectives within the semester for which the approval is requested.
