Updates to the Catalogs

The curriculum process is governed by the University Curriculum Committee. The committee considers new curricula proposals, changes and discontinuations to the catalogs. The curriculum approval process generally consists of a proposal from the department/program level, approved by the department/program curricula committee, the college curriculum committee, and the dean. Catalog updates are generally processed with approvals from the department, college, and committee representatives. Editing begins early in the calendar year with changes due by April 30th at the latest. The catalog is published by July 1st each year.
