Please note: The Associate of Science in Liberal Arts and Science Degree in General Education offers students maximum flexibility in selecting courses to meet their individual educational and employment goals. Although many courses taken for an Associate of Science in Liberal Arts and Sciences in General Education Degree may be transferable, sometimes the combination of courses may not completely satisfy the requirements for all programs of study at the student's intended 4-year institution. Students should meet with an advisor regarding course options to determine how they fit into their eventual 4-year degree program.

The Associate of Science in Liberal Arts and Science degree is designed for students preparing to transfer to a four-year institution to obtain a baccalaureate degree. This degree encompasses the 35-hour general education core required by the Arkansas Department of Higher Education Coordinating Board and also includes 25 hours of electives to ensure flexibility of the degree. Students, in coordination with their advisors, should select their electives based on the specific degree requirements at the institution expected to award the baccalaureate degree.
