

## **Associate of Science in Liberal Arts and Sciences** Pathway to Environmental Science (Planning & Administration) (60 ch)

NEWPORT • JONESBORO • MARKED TREE

## **Program Description:**

Program Description: Students requiring developmental coursework may not be able to complete this program of study in four (4) semesters. Developmental courses do not count toward total degree hours. Students having completed college level courses prior to enrollment will be assisted by their advisor in making appropriate substitutions. General education courses may be interchanged between semesters.

## **Possible Prerequisites:**

Course # **Course Title** 

ENG0051 Writing Seminar MATH0021 Foundations of Math Reasoning

**English Fundamentals** Math Fundamentals ENG0053 MATH0083

	ASLAS Directed Elective	3					
Total Hours		17		Total Hours			13

## **ADDITIONAL NOTES:**

The following science course rotations are currently in place:

- Fall: Biology of the Cell, Biology of Plants
- Spring: Biology of Animals, Earth Science

Note - Human Anatomy and Physiology I and Human Anatomy and Physiology II must be taken at the same institution to be transferable or gain acceptance into some programs.

Please note: The Associate of Science in Liberal Arts and Science Degree in General Education offers students maximum flexibility in selecting courses to meet their individual educational and employment goals. Although many courses taken for an Associate of Science in Liberal Arts and Sciences in General Education Degree may be transferable, sometimes the combination of courses may not completely satisfy the requirements for all programs of study at the student's intended 4 year institution. Students should meet with an advisor regarding course options to determine how they fit into their eventual 4-year degree program.
