

## Certificate of Proficiency Manual Machining (13 ch)

### Program Description:

ASUN's Advanced Manufacturing Technology program teaches the skills you need for today's manufacturing facilities and machine shops. The manufacturing industry uses advanced computer-aided drafting, programming, machining, and computer numerically controlled machines (CNC) to design, manufacture and deliver products to the customer. Students receive hands-on experience in, computer numerically controlled machines, computer-aided design and drafting, and machining.
