

- When an Arkansas State University-Newport student has a financial aid satisfactory academic progress appeal approved, they are placed on Academic and Financial Aid Probation with a Student Success Plan. Being placed on Academic and Financial Aid Probation means that the student is allowed one more semester of financial aid eligibility and allowed to enroll in courses for the next semester of enrollment.
- Students will remain on a Student Success Plan until they regain full Satisfactory Academic Progress with the Financial Aid office or be placed on Academic and Financial Aid Suspension again. The Student Success Plan is an agreement between the student and the ASU-Newport Financial Aid Office.
- The Standards for Student Success outlines the expectations for the student during the next semester of enrollment. The Academic Plan is a plan that outlines the estimated term(s) of enrollment to regain Satisfactory Academic Progress and their pathway to completion.

PURPOSE

The purpose of the Standards for Student Success is to promote self-reflection and promote positive activities to facilitate regaining Satisfactory Academic Progress. The purpose of the academic plan is to assist in clarifying the student's degree completion date, which is used to determine financial assistance.
